

Cost-sharing Contribution Calculation

23-79-2103* of the Arkansas State Code requires certain insurers to count amounts paid by or on behalf of an enrollee towards an enrollee's cost-sharing requirements such as a deductible.

This requirement is not in force if the amount paid is for a brand-name prescription drug that is:

- Not considered medically necessary by the prescriber; or
- Has a medically appropriate generic equivalent

** Applies January 1, 2022*
