

We Understand Multifamily

Auto-Out is currently installed in over 1 million residences nationwide. Over 100 different property management companies, ranging from affordable to conventional housing, trust Auto-Out to protect their stoves.

We understand multifamily and know you need to keep your properties secure and producing income. Affordability and ease of use make our cooktop fire suppression products unbeatable. Our Vice President has over a decade of experience as an owner and manager of affordable and conventional multifamily housing and currently serves on the Board of Directors for the Rural Rental Housing Association of Texas. Because we are the manufacturer, this allows us to ship direct to your property sites, all with no middle man price mark-up.

"In 2014 we made a substantial investment by installing Auto-Out's in apartment units in the DFW area. Over the last few years we experienced several kitchen fires in our properties and hoped that your product would help prevent future losses. In March, there was a kitchen fire at one of our Dallas properties. The Auto-Out extinguished the flame immediately and prevented what could have been a major loss. The total damage was less than \$1000! Our investment paid off handsomely."

John Gillespie, President of WAK Management Company 

"We believe they have suppressed every fire they have activated over. I recommend these devices to all of my colleagues. The customer service is top notch."

Tina Cox, Risk Manager at McKinley, Inc. 

You'll be happy to know that Auto-Out saved the building at Sawmill Family Estates last month!!

Peggy Obermesik, Risk Management Associate at KMG Prestige 

Why Choose Auto-Out?

24/7 Protection From the #1 Cause of Apartment Fires
No Maintenance Ever Required - Lasts 6 Years
Flame-Activated, Easy to Install
Helps Reduce Losses and Stabilize Insurance Premiums
